The other students listen and try to guess where they are. The students write present continuous sentences, describing what the people in the pictures are doing. The first student to throw a six wins the chance for their team to play. Materials provided by Northwestern University. Share full text access.

Ideally, it should be one that contains a few different vowels, e. These are ideal activities if your child is just learning to automatically recognize sight words – these high frequency words appear often in printed material. Their classmates then listen to the clues and try to guess where they are.
