The Tragedy of Wolf Dogs

It is first necessary to form the concepts "cat" and "dog," and then to attain the concept. Concept formation is more nearly what we are here calling thinking, and.

Critical periods in puppy development

I bypass that step here, the focus being exclusively on linking some important. Specifically, r-strategists would be characterized by early maturity, large numbers. Intensive scrutiny of this concept resulted in a good many objections, though.

How old is my pet in dog years or cat years? A veterinarian explains

Aging in dogs (*Canis lupus familiaris*) varies from breed to breed, and affects the dog's health. The latter reach maturity at a slightly older age than smaller breeds—giant breeds. By this terminology, the age of a 6-year-old dog is described as 6 dog years or 40–50 human years, a reversal from the previous definition.
