Copyright Notice. J Nurses Staff Dev. In a deductive argument, the premises are intended to provide support for the conclusion that is so strong that, if the premises are true, it would be impossible for the conclusion to be false.

Beyercriticalthinkingmeansmakingclear,reasonedjudgments. On the other hand, the good news is that, since our critical thinking ability varies according to our current mindset, most of the time we can learn to improve our critical thinking ability by developing certain routine activities and applying them to all problems that present themselves. To do so, clinicians must select the best scientific evidence relevant to particular patients—a complex process that involves intuition to apply the evidence.

InourowncaseWemustlookintotheunderlyingstructuresofathing.Modus operandi thinking requires keeping track of what has been tried and what has or has not worked with the patient.
