I have never subscribed to the belief that only certain people can lead, but I did have a bias that only certain people possessed the genetic make-up to be transformative through their leadership because, truthfully, I struggled to elicit this ability in many of the people I worked. Want to align your brand with the cause? Suzanne Steel.

it is true that women are more likely than men to take on these family responsibilities, only 20 percent of Americans participating in a Pew Research Center national research project said family was the real barrier to women reaching leadership positions. This motivated others to achieve similar accomplishments and has contributed to 12 other nurses achieving national certification within a 3-year period.
