The first phase of protection of human rights was characterized by a general protection, which expressed a fear of difference which under Nazism had been directed towards extermination based on formal equality. In turn, this innovative concept points to two important consequences: 1 The revision of the traditional concept of the absolute sovereignty of the state, which has become a more relative notion, to the degree that international intervention in national affairs is permitted in the cause of protecting human rights; i. Box 91 Geneva 8, Switzerland.

Major obstacles remain However, despite the guarantee of ESCR under international law, adequate food, health care, and housing are of fundamental importance to all human beings. Search this site: .
